FULL HOME THEATER ENTERTAINMENT

A complete theater, not a starting point.

A 5.1 system with Dolby Atmos and DTS:X processing, HDMI eARC, Wi-Fi streaming and automatic room calibration: two-way satellites, an MTM center channel and a 10-inch long-throw subwoofer, with every cable and bracket in one carton.

5.1	eARC	Wi-Fi	Auto
ATMOS & DTS:X VIRTUAL	ONE HDMI CABLE	AIRPLAY 2 · SPOTIFY	ROOM CALIBRATION

HIGHLIGHTS

What it does.

- Dolby Atmos, Dolby TrueHD, DTS:X and DTS-HD Master Audio (Atmos and DTS:X virtualized)
- HDMI 2.1 with eARC — 4K/120 Hz and 8K passthrough, HDR10+, Dolby Vision
- Wi-Fi with AirPlay 2, Spotify Connect and Tidal Connect
- Bluetooth with LDAC and aptX Adaptive
- Automatic room calibration with the included microphone
- Two-way satellites and an MTM center in dense MDF cabinets
- 10-inch long-throw subwoofer with DSP limiter and adaptive EQ
- Dedicated Class D amplifier per channel, 24-bit/192 kHz DACs

SATELLITE SIZE	3.5″ × 4″ × 6″ (W × D × H)
POWER	AC 110 V / 60 Hz
WARRANTY	2 years, handled by Bannister Acoustics

Two-way satellites, an MTM center

A dedicated tweeter and a midwoofer in every satellite; a symmetrical MTM center that spreads dialogue evenly across the sofa.

A long-throw subwoofer

A 10-inch driver with a vented voice coil, a DSP limiter at high volume and adaptive EQ that keeps the bass tight.

One cable from the TV

HDMI eARC carries uncompressed Atmos and DTS:X; 4K/120 Hz and 8K video pass straight through.

Calibrated to your room

The included microphone sets speaker delays, the subwoofer crossover and room EQ automatically.

IN THE CARTON

SUBWOOFER + PROCESSOR

4 SATELLITES (2 SHOWN)

CENTER CHANNEL

REMOTE

Plus a calibration microphone, OFC speaker cables, an A/V cable, a center-channel stand and four metal tilt-and-swivel brackets.
